

**COMPUTATIONAL STATISTICS & DATA ANALYSIS
CALL FOR PAPERS**

Special Issue on
BAYESIAN ECONOMETRICS

<http://www.elsevier.com/locate/csda>
<http://www.cfenetwork.org/annalsCFE>

We are inviting submissions for a special issue of CSDA dealing with Bayesian Econometrics.

The last two decades have seen an explosion in the popularity and use of Bayesian methods, largely as a result of important advances and developments in computation. Practitioners are increasingly turning to Bayesian methods to effectively tackle complex and realistic models and problems. This is particularly true in the field of econometrics. The aim of this issue is to illustrate and showcase recent advances in computation of relevance for Bayesian econometrics as well as highlight their application. Empirical contributions in finance and macroeconomics that contain novel Bayesian computational or methodological element are strongly encouraged.

The papers should have a computational or financial econometric, or macroeconomic component in order to be considered for publication. Authors who are uncertain about the suitability of their papers should contact the special issue Guest Editors.

All submissions must contain original unpublished work not being considered for publication elsewhere. Submissions will be refereed according to the standard procedures for Computational Statistics & Data Analysis. Information about the journal can be found at <http://www.elsevier.com/locate/csda> and about the supplement Annals of Computational and Financial Econometrics at: <http://www.cfenetwork.org/annalsCFE>.

The deadline for submissions is **30 April 2014**. However, papers can be submitted at any time and they will enter the editorial system immediately.

Papers for the special issue should be submitted using the Elsevier Electronic Submission tool EES: <http://ees.elsevier.com/csda>. In the EES please choose the special issue on *Bayesian Econometrics* and the Co-Editor responsible for the special issues.

The special issue Guest Editors:

Luc Bauwens, Universite catholique de Louvain, Belgium
E-mail: luc.bauwens@uclouvain.be

Gary Koop, University of Strathclyde, UK.
E-mail: gary.koop@strath.ac.uk

John Maheu, McMaster University, Canada.
E-mail: maheujm@mcmaster.ca

Yasuhiro Omori, University of Tokyo, Japan.
E-mail: omori@e.u-tokyo.ac.jp
